

THESE KIDS are a lot smarter than most of give them credit for being. They are "hep" to things of the world, in other words. To prove our point we submit the following . . .

"Daddy," asked the Hamlin lad, "what's a sweater girl?"

"Why—er—ah," mumbled his father, "a sweater girl is a girl who works in a sweater factory."

(After a moment's pause) "Where in the world did you get that question?"

"Where in the world," demanded sonny, "did you get that answer?"

HAROLD HUDSON, columnist in The Ochiltree County Herald, published at Perryton, has this to say in a recent issue:

You have to hand it to the tobacco industry: Just four short years ago the industry was reeling from the attack by prominent medical men, charging that cigarettes were responsible for much of the lung cancer and heart failure in this land of ours.

The industry met these attacks head-on—with the introduction of filter tips on their "coffin nails."

They have sold filter tips with such intensity that last year, 1958, saw the highest consumption of cigarettes in American history—with most of the increase attributed to filter tips.

Any smoker knows the simple facts of smoking, but he will go to almost any length to keep on smoking.

It is elementary that, since tobacco tars give cigarettes their taste and nicotine gives them their kick, they are obviously weakened in taste and kick to the degree that their smoke is filtered.

Therefore, the smoker who turns to filters merely increases his consumption to maintain the daily pre-filter quota of tar and nicotine and eludes himself into thinking this isn't unhealthy at all.

There are some benefits from this increased cigarette smoking. First of all, the tobacco companies are making money and paying taxes. The tobacco farmer is getting a good price for his products. The federal land state governments are benefitting from the tax revenues. Doctors and hospitals are taking care of over-smoked patients, and if you want to be realistic about it, the funeral parlors are attending to the final rites of those smoked-out individuals.

Still the smoke goes on. Relatively few of the millions hooked by the cigarette habit will ever kick it short of dire poverty or cancer or thrombosis. Many smokers wouldn't rebel even then!

PUNGENT THOUGHT can be found in the little items or paragraphs tucked away in the corners as fillers in today's newspapers and magazines. Here's an accumulation from our recent reading . . .

Wealthy people miss one of life's greatest thrills—paying the last installment.

"The person who doesn't worry in these hectic times is a neurotic," says a psychologist. Or an incurable optimist.

Shun idleness. It's a rust that attaches itself to the most brilliant metals.

With history piling up so fast, any day now seems to be the first anniversary of something awful.

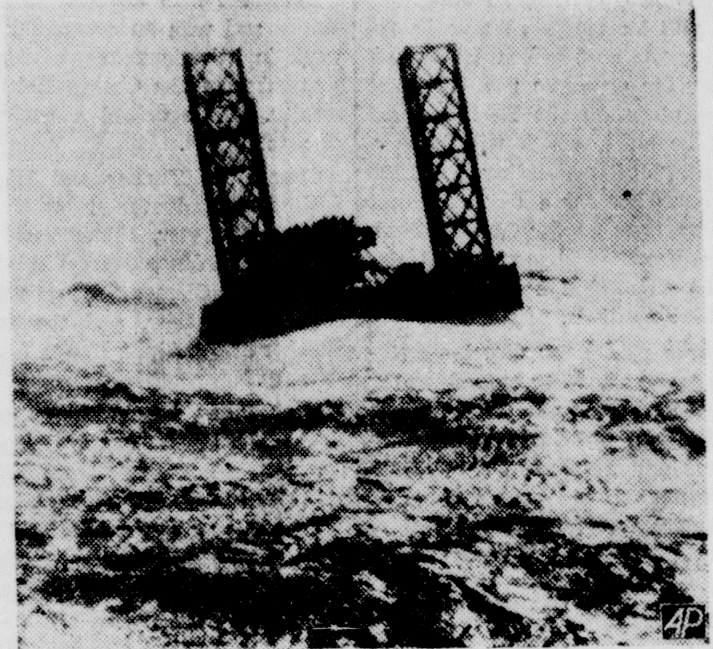

It is better to take things as they come than to try to catch them as they go.

It is said that nations can be judged by their songs. If true, our old ship of state is rocking and rolling.

The fact that a person has a right to his opinions is no excuse for his going around boring people with them.

The Country Parson

"A man's bad habits, like the clutter in his living room, may seem natural enough to him and still look messy to others."

OIL RIG PLATFORM RIDES OUT ROUGH SEA—Bobbing like a cork, the Italian-owned "Black Beetle" offshore drilling platform, rides out a rough sea during the 7,000-mile tow-voyage from Vicksburg, Mississippi, to its present drilling location off the coast of Sicily. At times the rig encountered waves up to 75 feet high, but its rugged stability kept it afloat and it suffered no damage. The \$1,000,000 platform was designed and built for the Italian government by L. G. LaTouneau, Inc. of Longview, Texas.

Special Awards Go High School Grads

Finis to the 1958-59 session of Hamlin High School was written last Thursday evening when diplomas of graduation were issued to 51 seniors at the commencement exercises in the high school auditorium. The diplomas were presented by Fred B. Moore Jr., president of the board of education, following a program given by members of the senior class and other musical numbers.

Several special awards were given by High School Principal B. V. Newberry and Superintendent of Schools C. F. Cook.

Gene Murff who was valedictorian of the graduating class, was presented a special \$100 scholarship by the Jones County Heart Association. Austin Siburt, president of the county unit, made the presentation. The scholarship will be used by young Murff to further his study toward a doctor's career. He will enter the University of Texas at Austin next fall.

Carl Murrell, chairman of the industrial committee of the Hamlin Board of Community Development presented awards of \$25, \$15 and \$10 to Jerry Carlton, Libby Johnson and Eddie Gabriel for their essays written recently on "What Hamlin Can Do to Get Industries." The essay project is being promoted on a regional basis by the West Texas Chamber of Commerce and young Carlton's essay, as first place winner in the local contest will be entered in regional contests next week at the annual WTCC convention at Amarillo.

MORRISON OPERATED.

J. C. Morrison, long time Hamlin resident and former meat cutter, was reported doing fairly well Wednesday morning following major surgery in the Stamford Sanitarium first of the week.

Ab Brown Honored by Celotex Group For 50 Years' Service at Hamlin Plant

W. A. (Ab) Brown, 76-year-old Hamlin man, was honored at a special party Saturday evening at Hickman's Cafe in Aspermont by officials and key employees of the Celotex Corporation plant at Hamlin, commemorating completion of 50 years' employment with the Celotex firm and its predecessor, the Texas Cement & Plaster Company.

The party was a surprise affair for the veteran employee, and it required a lot of maneuvering and fibbing to get him to the shindig, his son, Otha Brown, and others will tell you.

At any rate, Otha and others finally got him dressed up and into Otha's car on a ruse of seeing a fellow about a trailer up toward Aspermont. When the little group got to Aspermont, they went into the cafe "for a cup of coffee" only to find some 60 Celotex officials and fellow employees gathered at banquet tables.

During and following the dinner the honoree was toasted and eulogized by D. W. Cowan, plant works manager at Celotex, and others.

Brown's evening was climaxed with the presentation by fellow workers of a chaise longue, floor lamp, smoking stand, pipe, tobacco, cigars and cigarettes. The plant presented a 23-jewel watch to the veteran employee.

Brown began working for the Texas Cement & Plaster Company plant at Hamlin on June 11, 1909, at 17½ an hour, with no extra pay for overtime.

Rains Over Week-End Give Row Crops an Early Boost

Slow-Down-and-Live Campaign to Open Saturday

For the seventh year, Texas is promoting the summer-time traffic safety campaign under the slow-down-and-live slogan. The Texas Safety Association will coordinate the program throughout the Lone Star State.

Theme for 1959 is "Can You Stop in Time?"

As in previous years the campaign starts Memorial Day and will end with Labor Day. This period has been selected for the campaign because it is during these months that vacation travel reaches its peak.

J. O. Musick, TSA's general manager, points out that the theme, "Can You Stop in Time?" emphasizes four basic causes of every accident.

"A mechanically unsafe vehicle, a roadway hazardous in design or size, a driver inadequately equipped for his task or a driver whose mental and emotional attitude (often caused by traffic jams, drinking, fatigue, etc.) is such that it causes him to forget his normal safe driving habits."

In Texas last year there were 2,342 persons killed and 126,842 injured in 72,362 traffic accidents. Most of these occurred because someone could not stop in time.

27 Given Perfect Attendance Award At Junior High

Twenty-seven students of Hamlin Junior High School made perfect attendance records during the past school term, it was revealed last week-end by Marvin D. Carlton, principal, in tabulating the records. Awards in attendance were presented to the group at closing exercises of the school last Friday afternoon.

Mary Debs Rountree, eighth grade student, was recognized for her eight years of perfect attendance, she not having missed a day of school since she started.

Those receiving the awards in attendance, by grades, were:

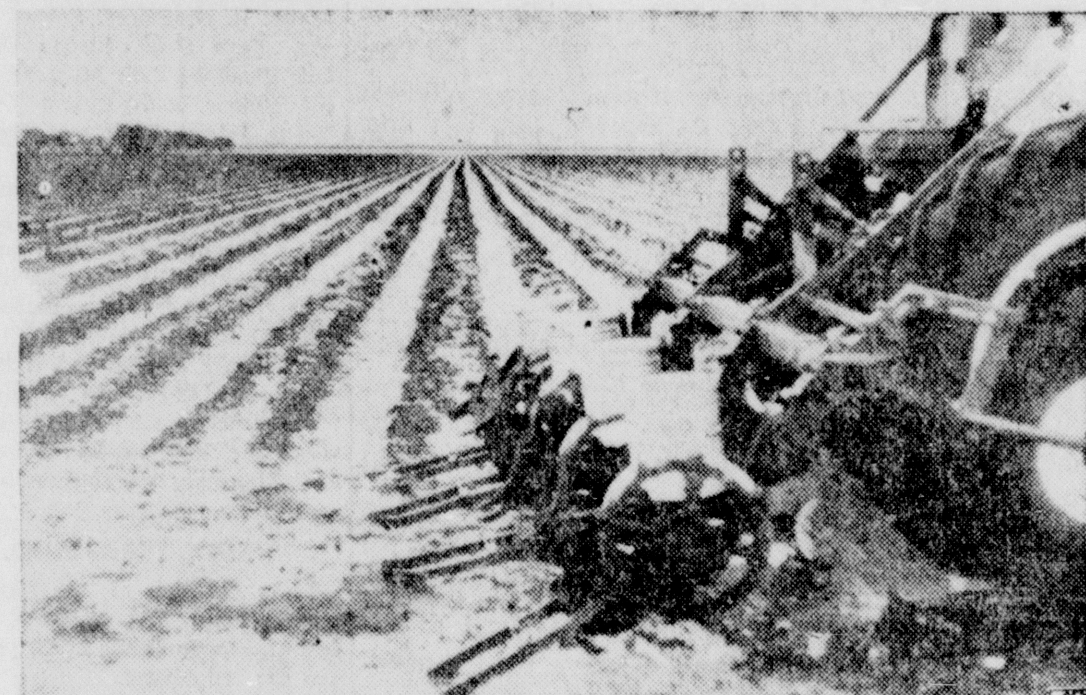

Eighth Grade—Mike Martin, Kay Johnson, Roy Kelly, Jackie Smith, Anthony Wolf, Joe Rabjohn, Van Newberry, Mary Debs Rountree, Everett Money and Danny Niedecken.

Seventh Grade—Gary Ted Jay, Nickie Moore, Dewane Bundas, Larry Cronk, Portia Long, Polly Jackson, Larry Butler, Joe Hayes, Sue Martin, Barbara Lakey, Jerry Brown and George Henry Smith.

Sixth Grade—Connie Jo Duncan, George Smith, Darlene Scott, Billy Kitchen and Melba McDaniel.

HOME ON LEAVE.

Milton E. Crow, serving with a unit of the U. S. Navy, is home on leave, visiting with his parents, Mr. and Mrs. F. M. Crow, and other relatives in the Hamlin community.

WINTER SCENE IN MAY—Hail piled up two inches deep on the level and deeper in the farm row middles south of Ralls from a vicious hailstorm described as the "worst in 40 years" which raked South Plains points in Texas last week. The hail, along with 1.25 inches of rain, fell within a 15 to 20-minute period, it was reported. In other areas of the South Plains hail as big as baseballs was reported.

Simultaneous Vacation Bible Schools Set by Most Churches

Area Methodists At Conference in Abilene This Week

Several Hamlin area Methodists are in attendance this week on the annual meeting of the Northwest Texas Methodist Conference, being held at St. Paul's Methodist Church in Abilene.

Rev. Edmund W. Robb, pastor of the First Methodist Church, and Rev. Gene Moore, pastor of the Faith Methodist Church in Hamlin, will give their annual reports of activity at their local church, which show steady growth and interest among members and increased financial support of all church causes.

Rev. Robb went to Abilene Monday to attend a committee meeting, and actual sessions began Tuesday morning. The conference closes Friday. L. H. McBride is the official delegate from the First Church and alternate is John C. Bryant.

The sessions will close Friday following announcement of pastoral appointments. Both the local ministers are expected to be returned to their charges, church leaders indicated first of the week.

Decline Recorded in Attendance at City Sunday School Total

A decided sag in attendance at Sunday Schools of the 12 reporting churches of Hamlin was recorded Sunday from the previous week. The 1,151 total was 165 less than the previous Sunday, and 102 less than the year ago attendance.

Attendance, by churches, for May 24, May 17 and a year ago follows:

Churches—	May 24	May 17	Year Ago
Ch. of Nazarene	60	79	106
Faith Methodist	40	64	34
Oak Gr. Col. Baptist	39	70	62
No. Cen. Baptist	85	67	70
First Baptist	330	384	375
Foursquare Gospel	53	62	69
Church of Christ	148	179	160
First Methodist	208	210	181
Assembly of God	49	49	47
Sunset Baptist	45	52	46
Mexican Baptist	49	55	57
Calvary Baptist	45	45	46
Totals	1151	1316	1253

Most Businesses to Be Closed Saturday

Most Hamlin business houses will be closed Saturday in observance of Memorial Day as one of the six officially approved holidays by merchants of the city, a quick check by The Herald revealed.

Grocery stores and a few other businesses indicated they would not close.

Registration to Be Conducted by Groups Saturday

Vacation Bible Schools at some eight or nine churches of Hamlin are scheduled to get underway next week, according to Rev. Calvin Bailey, president of the Hamlin Ministerial Alliance, sponsor of the simultaneous schools.

Most of the churches will observe Saturday of this week as preparation day. Students will be enrolled for the classes next week from 8:30 to 10:00 a. m. at the various participating churches.

Some of the churches will conduct their Vacation Bible Schools only during next week, terminating the classes Friday. But First Baptist Church and possibly others will carry their classes through Wednesday of the following week.

Bailey points out that classes will be conducted for all age groups from three through 16 years.

Handwork, music, Bible stories and other related topics will be taught during the schools. Hours will be from 8:30 until 11:30 each morning.

Highway 83 Soon To Be Surfaced All Way Into Canada

Construction started last week on the final 11 miles of gravel on the United States-Canada stretch of U. S. Highway 83 in the United States, declares a news letter from the national headquarters of the U. S. Highway Association at North Platte, Nebraska, to The Herald. Hamlin is on that famous highway.

The letter continues: Just think, this fall the road will be hard-surfaced from Canada to Mexico! Little wonder that Nebraska Governor Ralph Brooks was pleased to issue invitations to the premier of Canada, the governors of the six states through which Highway 83 passes and the governor of Tamaulipas, Mexico, as well as the chief engineers of the several states to the gala celebration to be held in North Platte October 7 and 8 celebrating this event.

A delegation from Hamlin is being invited to the occasion, according to a letter to the Hamlin Board of Community Development.

Incidentally, Highway 83 is the longest stretch in Texas as well as the longest in the United States.

Farmers Are Busy With Planters And Cultivators

More than an inch more of rain came over the week-end to give row crop farmers a "shot in the arm" about their crops for the current season. Added to what had already fallen during the first part of the month, things are now looking rosy for the row cropper in this section.

Traces of rain fell last Tuesday and Wednesday. Last Friday recorded .25 of an inch, Saturday tabbed .71, and Sunday added another .06 of an inch to total 1.02 inches for the week-end, according to the government rain gauge maintained by Bill Rountree at the city pump station.

May previously had recorded 1.89 inches. This brought the month's precipitation to 2.91 and the year's total to 5.04 inches. The year's total is about half the normal rainfall for this time of year.

Thousands of acres of grain sorghum and lesser amounts of cotton was in the ground and up to six inches high. Following the rains tractors with planters and cultivators were humming first of the week. Those who had not planted cotton were busy putting seed in the ground, while others with stuff up were busy fighting the young weeds that were sprouting through the ground surface.

Grain farmers were being delayed in harvesting fair wheat and oats crops, but they were glad to have the rain, too.

Baseball Boys 16 to 18 To Meet Friday at 4:00

Boys of the community from 16 to 18 years of age interested in playing baseball in the Double Mountain League recently organized are asked to meet at the Hamlin High School baseball park tomorrow (Friday) afternoon at 4:00 o'clock, announces Connie O'Neal, manager of the local boys' group.

Play is scheduled to get underway next week in the new league, to be composed of teams from Sweetwater, Colorado City, Rotan and Hamlin.

Who's New This Week

Debra Lynn Brinegar is the name of the new daughter of Mr. and Mrs. John Brinegar of San Antonio, who was born at Santa Rosa Hospital there on May 15. She weighed six pounds 11 ounces. John Walker of Hamlin is a great-grandfather of the baby. Other great-grandparents are Mr. and Mrs. Fred Anderson of Stamford and H. V. McElreath of Stamford. Grandparents are Mrs. Lucille McElreath of San Antonio, Doyle Brinegar of San Antonio and H. C. McElreath of Snyder.

Mr. and Mrs. Charley Ward of Sweetwater are announcing the birth on May 20 at the Simmons Memorial Hospital in Sweetwater of a new daughter. The little miss, who weighed an even six pounds, has been named Marion Elizabeth. Mrs. Ward is the former Shirley Griffin, daughter of Mrs. Margie Griffin of Hamlin.

Three new citizens have been recorded at the Hamlin Memorial Hospital since last week's report in The Herald. A girl and two boys, they are:

A girl for Mr. and Mrs. L. H. Lutz was born May 16. Weighing seven pounds 11 ounces, she will answer to Donna Lee.

A boy arrived for Mr. and Mrs. Robert Quintenella of Rotan on May 16. Heavyweight at eight pounds two and one-half ounces, he was named Larry.

A boy for Mr. and Mrs. Gus Webb arrived May 22. Tipping the scales at six pounds eight ounces he accepted the label Robert Andrew.

NEW UNITS START 23 PLANES AT ONE TIME—A central compressed air system is enabling employees at Chance Vought Aircraft at Dallas to start as many as 23 planes on its run-up ramp. Three 13,000-gallon tanks (upper left) provide compressed air to drive starting units located along the ramp. Islands housing the compressed air power units can be seen to the left of each plane fuselage insignia in the above photo. The system eliminates the electric starting carts familiar to commercial airports and reduces costs.

TEXAS' 1958 NET INCOME PER FARM RISES

Net income realized by Texas farmers in 1958 averaged \$3,254 per farm, 79 per cent more than in 1957, according to preliminary estimates of the Agricultural Marketing Service, according to a release from College Station to The Herald.

Realized net income is the amount available for spending after farm production expenses were paid. Realized gross income per farm in Texas averaged \$8,999 in 1958. This is \$2,187 more than in 1957.

Cotton was responsible for more than half the increase in total cash receipts. Sorghum grain, wheat and cattle also showed substantial gains. But production expenses, especially depreciation charges, feed, livestock and hired labor, also rose.

Texas farmers increased inventories of crop and livestock in 1958. Total net income, which includes an allowance for these changes in inventories, averaged \$3,262. A year earlier it was \$2,341.

For the United States, realized net income averaged \$2,750 per farm in 1958. This was 23 per cent more than in 1957 and the third highest amount on record. Because of larger inventories, the total net income per farm showed an even greater increase. The average of \$2,985 per farm was 25 per cent more than in 1957, and second only to the 1948 record of \$3,056.

Net income per farm in the Hamlin area apparently likewise is greater than it was 10 and 20 years ago. While many of the smaller farms that formerly provided livelihood for hundreds more families over more thickly populated communities, farming methods have been the principal cause of the increase from low net income and inventory to higher sounding figures. Where a farmer used to cultivate 75 acres with a team of mules and other one and two-row methods, farming now is being done with powerful tractors doing two to ten times as much work with one man at the helm.

RECALLING Other Years

☆ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

THIRTY YEARS AGO.

In scanning the files of Your Home Town Paper, we find the following news briefs, taken from the issue of The Hamlin Herald dated May 24, 1929:

Twenty-eight seniors of Hamlin High School compose the graduating class of 1929. They are Cleve Griffin, Denman Morgan, T. C. Arnett, Fred Mayfield, Ruth Wilson, Gladys Rowland, Ila Evans, Katie Ike Core, Nellie Black, Ruth Kemp, Verline Musick, Howard Barrett, Clyde Huff, John D. Ferguson, Howard Greenway, John S. White, R. N. Fairley, Pearl Ellison, Faye Stice, Gladys Davis, Lois Bradford, Lois Milstead, Lucille Malone, Louise Proctor, Ouida Evans, Odessa Scott and Thelma Switzer.

Members of the Hamlin school board have been displaying plans for a proposed new high school building, which is badly needed to care for the growing number of scholastics in the district.

Mrs. Earl Temple and children of Lamesa and Stella Thurman, who is teaching school at Lubbock, visited their parents, Mr. and Mrs. J. F. Thurman, over the week-end.

TWENTY YEARS AGO.

From the files of The Hamlin Herald dated May 26, 1939, the following news briefs of 20 years ago are reproduced:

Safeway advertises the following prices: Hams, 19 cents pound. The long dry spell that has plagued this territory was broken Monday when bountiful rains covered the entire area. Part of the mile-long dam on Upper California Creek that will form a new lake west of Hamlin was taken out by the flood waters, but contractors said it could easily be replaced.

Mr. and Mrs. Jack Wilson of Hollis, Oklahoma, spent Sunday here with their mother, Mrs. M. Y. Wilson.

Mrs. W. H. Dean and sons, Ralph and Jack, visited her parents, Mr. and Mrs. E. S. Moore, at Winters over the week-end.

Nine seniors at Wise Chapel are scheduled to receive diplomas in graduation exercises Friday night. They are Keith Louise Jobe, Colleen Bush, Fred Vaughan, Beulah Raye Rose, Billy Huber, Billy Taylor, J. C. Riddle, Junior Patterson and Wilburn Ford.

TEN YEARS AGO.

Events in the Hamlin community 10 years ago included the following, reprinted from the issue of The Hamlin Herald dated May 27, 1949:

Hamlin community's first load of wheat was brought to town this week by LaFoy Patterson, farming southwest of town. J. T. Smith, also farming in that area, actually cut the first wheat, but did not market it.

Hamlin High School's Pled Pipers will play the Ballinger Bears Friday for the regional baseball title, each team having won their district titles.

Total rainfall for the first five months of 1949 is 15.15, only a little less than the 16.07 total for all of 1948, according to tabulations of Bill Rountree, government rain gauger at Hamlin.

FIVE YEARS AGO.

Goings-on in the Hamlin community are reflected in the following news briefs, taken from the issue of The Hamlin Herald dated May 28, 1954:

Adjustment of acreages allotted to Jones County farmers has been promised by Congressman Omar Burleson at Washington through the Department of Agriculture. Cotton farmers of this area, along with others of West Texas, have protested the drastic cuts in allowable acreages and awarding of increased allotments to East Texas, for example.

Lakes in the Hamlin section caught good supplies of rains over the week-end as 1.62 inches of rain was measured. The fall brought the total rainfall for the year to 9.34 inches, which is only a little less than normal for this time of year, according to Bill Rountree, government rain gauger at Hamlin.

ONE YEAR AGO.

News bits from The Hamlin Herald dated May 29, 1958, include the following:

First wheat of the 1958 season was brought in this week by Woodrow Bagley of the Radium community. The grain yielded 39 bushels per acre from a 15-acre field, the farmer said.

Hamlin swimming pool will open Friday afternoon, according to Mac Fullerton, who will manage the pool under contract from the Hamlin Foundation.

New Income Tax Ruling on Wages to Children May Benefit, Says Burleson

It is seldom that encouraging news comes from matters dealing with income tax, declares Congressman Omar Burleson of Anson in his weekly news letter to The Herald from Washington. His release continues: One has emerged from recent rulings from the Internal Revenue Service.

Farmers and business men in rural areas particularly, may find benefit in it.

Payment of wages to children of a taxpayer may be deducted as a regular business expense, even though the money may be used for partial support of the child. Also, such payment does not in itself forfeit the taxpayer's \$600 exemption. The test is whether the parent contributes more than half to the support of the child.

Research and plans for the demineralization of salt water has been discussed in this column previously. By reason of its importance, it deserves further mention.

The increase in water usage points to two exceedingly important considerations for the future. First, every drop of water possible needs to be conserved. Second, a way must be found to provide more water in the future, even with the best water conservation practices.

It takes seven gallons of water to flush a commode; 200,000 gallons to grow a ton of good roughage; 660,000 gallons to make a ton of synthetic rubber. Paper mills, textile plants and all the expansion of new industry require an almost unimaginable amount of water.

Surveys indicate a water shortage in the United States by 1980 unless new methods are found to convert salt water to fresh water on a practical and economical basis. It is estimated that sky-

rocketing population and tremendous industry expansion will lift requirements of the United States in 20 years to 597,000,000 gallons of water a day. In 1955 the requirement was 221,000,000 gallons daily. The Department of the Interior says there just is not that much water.

Under a \$10,000,000 authorization from Congress, an undertaking will be aimed at greatly reducing the cost of converting salt water for domestic use. A plant some place on the Pacific Coast will be built, which will have a capacity of converting 1,000,000 gallons of water a day at a cost of less than \$1 for 1,000 gallons. This should represent a 50 per cent reduction in the cost of present methods.

Three plants for direct conversion from salt water to fresh water will be built on the Atlantic, the Pacific and the Gulf Coasts. Two others will be located inland for experiments and converting of "brackish water," which is prevalent in our West Central Texas area.

We think we have an ideal location for such a plant, but the competition is severe. It is reported that the states of New Mexico and Arizona have offered the federal government \$1,000,000 to locate one of these two plants in their states, and will contract to buy the fresh water produced at \$1 per 1,000 gallons.

Just a thought: It is better to be on the ball than behind it.

Too many people waste their time finding ways to waste the other half.

Most people are ready to speak by the book if they can select the book.

Graduates of DePriest School Receiving Degrees at Colleges

Three graduates of DePriest Colored School at Hamlin who have pursued their education at higher institutions of learning are graduating from college this term, according to E. S. Morgan, principal of the local school.

John Reese Mayfield graduated from Texas Southern University at Houston. He majored in physical education and health education. He also excelled in dramatics and won an award for his work in his department. He is a member of the Omega Phi fraternity. He received a bachelor of arts degree.

Clementine Turner and Hattie Anderson graduated from Texas College at Tyler. They received bachelor of science degrees in home economics. Clementine received a cum laude honor, and she is a member of the Alpha Kappa Alpha sorority.

Mrs. Ethel Ford, Mrs. Teresa Brown, William Henry Brown, David Brown and Vinita Mayfield attended the commencement exercises of John Reese Mayfield at Texas Southern University Sunday afternoon at 5:00. They also attended the commencement exercises at Texas College, held Monday morning at Tyler. Mr. and Mrs. Clint Wells, Johnny Turner, Ruth Sirrels and Mrs. Anderson also attended the Tyler rites.

Freedom of the Press

In the editorial columns and on the front pages of newspapers, and from the speakers' platforms, we constantly hear about the "freedom of the press."

Newspaper editors and publishers constantly are seeking ways to safeguard the "freedom of the press." There is no reason for the search to be prolonged or difficult, for this right is guaranteed under the constitution of the United States.

Freedom of the press is a right which carries certain definite responsibilities with it. All that the newspapers of the nation have to do, to protect and preserve the "freedom of the press" is to see to it that they rigorously perform the duties that the public has a right to expect of a free press.

As long as the people of this country believe that the press, in fact, is free, there is no danger whatever of the newspapers losing their "freedom." If the public ever becomes convinced that the newspapers of this country are deliberately distorting the news, misrepresenting officials or otherwise using their journals for selfish purposes, there will be no need for them to clamor about free press.

The general public, disgusted with a sycophant press will applaud any step taken to curb unbridled license. A decent code of ethics, a sense of responsibility and the evidence of a desire to serve the public well will go far toward preserving the "freedom of the press."

Nuggets of Thought

If we would guide by the light of reason, we must let our minds be bold.—Justice Brandeis.

How difficult it is to persuade a man to reason against his interest; though he is convinced that equity is against him. — John Trusler.

Example has more followers than reason.—Christian Nestell Bovee.

Irrationally held truths may be more harmful than reasoned errors.—Thomas H. Huxley

Good reasons must, of force, give place to better.—William Shakespeare.

The best of all governments is that which teaches us to govern ourselves.—Goethe.

It is a very easy thing to devise good laws; the difficulty is to make them effective.—Lord Bolingbroke.

National injustice is the surest road to national downfall.—William E. Gladstone.

I believe the West will eventually win the world to its side, because of its belief of the freedom and the dignity of the human personality.—Arnold J. Toynbee.

That is the most perfect government under which a wrong to the humblest is an affront to all.—Solon.

Subsidies Multiplying

Senator Harry Byrd of Virginia recently reviewed his quarter century in the U. S. Senate. He noted that when he first went to Washington there was only one big federal subsidy—\$250,000,000 for highways.

Today 40,000,000 persons are getting checks from the federal treasury. There are 62 programs of grants to the states, involving nearly \$5,000,000,000 every year. In addition, the federal government has extended credit to individuals, business and housing totaling nearly \$80,000,000,000.

Editorial of the Week

CUT GOVERNMENT AID.

Local governments are entitled to federal money despite opposition by "hypocrites," U. S. Senator Lyndon B. Johnson said recently at Dallas.

Speaking to the County Judges and Commissioners Association of Texas in Adolphus Hotel, the Senate majority leader said local governments should look to Washington if they need help.

"I don't hesitate to say that if it is proper in principle to extend aid to governments abroad at a low interest, it is proper to extend loans to our local governments at the same rate," he said.

"I am tired of the hypocrisy that says it is not," Senator Johnson said, receiving an ovation from his audience. He compared opposition to the federal aid as "little terriers who are always barking."

The senior senator did not elaborate on any particular local projects that should get federal assistance.

The above are peculiar words quoted in The Dallas Morning News of October 9, 1958, as coming from the senior senator from Texas, who has been such a staunch supporter of state's rights, and getting government back to the grass roots.

It appears to this Journal that it is rather inconsistent to advocate local governments to request money from the federal government when that government faces a deficit of some \$12,000,000,000 for the present fiscal year. The senator well knows the federal government has no funds to loan to governments abroad or to local governments here at home other than those dollars it first extracts from its citizens. The senator also knows that there are many thousands of people in Texas and elsewhere in these United States that do not think it "proper" to make some of these loans abroad or these loans at home.

The Texas Tax Journal is proud to be classed as one of the "little terriers who are always barking" about this acceptance of federal aid, however it is not running for office nor is it seeking votes.—The Texas Tax Journal.

CHEVY GIVES YOU 7 BIG BESTS!

Take it, not from us, but from the published opinions of outside, independent experts and from on-the-record facts and figures: Chevrolet gives you these 7 big bests over any other car in its field!

<p>BEST BRAKES</p> <p>In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR*, Chevy out-stopped both the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings for up to 66% longer life.</p> <p>*National Association for Stock Car Advancement and Research</p>	<p>BEST ENGINE</p> <p>Every motor magazine has given Chevy's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed, this device is surely the most wonderfully responsive engine available today at any price."</p>	<p>BEST ECONOMY</p> <p>No doubt about this: two Chevrolet Sixes won their class in the famous Mobil-Gas Economy Run, got the best mileage of any full-size car.</p>
<p>BEST STYLE</p> <p>POPULAR SCIENCE magazine sums it up: "The fact is, in its price class the Chevy establishes a new high in styling..." It's the only car of the leading low-priced three that's unmistakably '59 in every modern line.</p>	<p>BEST ROOM</p> <p>Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.7 inches wider than competitive cars.</p>	<p>BEST TRIFLES</p> <p>Who'd want to do without Chevrolet's extra luxuries? Like Safety Plate Glass in every window, the protection of full wrap-around bumpers, the convenience of single-key locking, a real overhead curved windshield, oil-hushed hydraulic valve lifters in every standard engine for quieter running, a bigger luggage compartment with side wall lining... and the convenience of automatic choke in every model!</p>
<p>BEST TRADE-IN</p> <p>Check the figures in any official N.A.D.A.† Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."</p> <p>†National Automobile Dealers Association</p>	<p>BEST RIDE</p> <p>You'll be able to tell this yourself, instantly. But MOTOR TREND magazine expresses it this way: "...the smoothest, most quiet, softest riding car in its price class."</p>	

Visit your local authorized Chevrolet dealer and see how much more Chevy has to offer!

Cardinals Retain Top Spot in Little League Standings After Two Weeks

Rainy weather and school closing exercises last week caused postponement of two of the four scheduled baseball games of the Hamlin Little League. After the two tilts, the Cardinals maintained their perfect record for the season by lambasting the Giants 9 to 3. The Braves improved their record by trimming the Yankees 3 to 2. Of course, the Giants dropped to third place with their loss, and the Yankees got a bigger hold on the cellar spot by making it three losses in as many starts.

The postponed games will be made up during the season as they can be worked in, according to Dr. M. L. Smith, Little League president.

The standings look like this after figuring last week's games:

Teams	P.	W.	L.	Pct.
Cardinals	3	3	0	1.000
Braves	3	2	1	.666
Giants	3	1	2	.333
Yankees	3	0	3	.000

May 19—Cards 9, Giants 3.

In last Tuesday's game the Cardinals scored in the second, third, fourth and sixth innings to trounce the Giants 9 to 3. In the second J. Stewart walked, moved to second on a walk to T. Ferguson and scored when T. Hill singled. In the third, J. Inzer single, J. McCurdy walked and both scored as G. Hester hit a two-bagger. Hester later stole home. In the third frame T. Ferguson got on an error and scored by stealing. In the sixth J. Stewart singled. T. Ferguson walked and both scored on a three-bagger by J. Inzer. Inzer scored on a single by J. McCurdy, and McCurdy scored on a single by G. Hester.

The Giant scored in the second inning as Webb singled, then went home on a single by Perry. Again in the sixth frame the Giants pushed over two more runs. Wolff led off with a walk as did Drummond. Both moved around on a fielder's choice and Overman singled to bring them both in.

Korean Vets Must Step Up VA Courses

Some Korean veterans, in night school or in parttime training under the Korean GI bill, may have to start accelerating their courses if they want to finish up by the termination date of their GI training benefits.

The Veterans Administration pointed out that a veteran's GI termination date is eight years from the date of his discharge, but in no event can he take GI training beyond January 31, 1965.

Veterans may not be paid GI educational allowance after their termination dates have passed, VA said.

WIND IT UP TIGHT AND LET'S GO!—TerriLynn Waters, seven, of Dallas, isn't quite sure if it's just a gag or if winding the big key on Dewitt Burrows' foreign sports car really makes it go. Burrows, 24, an engineer with a Dallas instrument company, installed the key as a gag and finds it draws many comments from passing motorists and lots of questions from the kiddies.

Cotton Trade Has Tremendous Effect on Economy of Country, Declares Expert

Cotton is a commodity which creates a good "multiplier" effect in the economy, says Bob Cherry, economist for the Texas Agricultural Extension Service, because most of the cotton farmer's dollar is usually dropped into the money stream of the community. Though the dollar's identity may be quickly lost, it tends to circulate through all the avenues of trade and commerce.

The loss of cotton income, on the other hand, can adversely affect a community's whole economy, points out Cherry. For that reason, adds the economist, communities can look upon unused cotton allotments as a matter of community concern. Last year, for example, about one out of each 20 allotted acres was neither planted nor put in the soil bank.

The law under which cotton farmers are now operating contains provisions for the voluntary release and reallocation of 1959 cotton allotments. Where the release is made, the released acreage is retained on the releasing farm as history and is used in figuring future allotments as though it were planted. But, Cherry points out, it will not qualify a farm for an old farm allotment as having planted cotton in one of the three previous years.

It is very important that released allotments be reapportioned and planted on other farms in order to hold county and state planting history. The released and reapportioned allotments must

be planted if they are to remain a part of the acreage history for the county and state, emphasized Cherry.

Released allotments may be reallocated to any old or new cotton farm on which additional acreage is needed and will be planted. Any excess of released allotments in a county may be surrendered to the state Agricultural Conservation and Stabilization Committee for reapportionment to other counties only after each cotton farmer in the releasing county has received all of the allotment he can plant.

Cherry suggests that farmers contact their local ASC office or county agent for details on this important part of the 1959 cotton allotment program.

New Shoplifting Law To Be in Effect Soon

A new state law regulating the crime of shoplifting and providing for swifter and easier conviction of the crime, and assessment of heavier punishment, will become effective within a few days, it is pointed out in a bulletin to The Herald this week.

Persons suspected of the crime can be taken and searched, and brought before the proper magistrate immediately, declares the bulletin.

Incidentally, several cases of shoplifting have been reported by Hamlin stores in recent months.

Old-Time Cowboy to Ride Trail Three Days To Cowboy Reunion

J. A. "Guff" LaFoon, 82-year-old old time cowhand of Jayton, who worked for the 2 Circle Bar, Pitchfork and 6666 Ranches in years past, vividly recalls the Mackenzie Trail near Jayton.

LaFoon intends to retrace this old trail back down into Stamford for the Texas Cowboy Reunion, Thursday, Friday and Saturday, July 2, 3 and 4. He estimates it will take three days' riding, and, "I will arrive on the third day in time for the Cowboy Reunion parade at 4:00 p. m., and intend to stay the full three days."

LaFoon is a character from the past. His blonde white hair hangs almost to his waist. He looks a bit like William F. Cody, and tells Western stories with consummate skill. He actually worked on the open range for many years.

Some people of Hamlin will remember LaFoon as the old fellow who several years ago fell in the Farmers & Merchants National Bank in Hamlin with a bucketful of silver dollars.

First successful beet sugar factory was built in the United States in 1870.

Second sheets at The Herald.

post office or from the Regional Director, Eighth U. S. Civil Service Region, Room 103, 1114 Commerce Street, Dallas, Texas.

OLD-TIMER — J. A. "Guff" LaFoon (above), 82-year-old old time cowhand of Jayton, will be a special attendant at the Texas Cowboy Reunion at Stamford July 2, 3 and 4.

Julius O. Decker Ends Navy Recruit Course

Julius O. Decker, apprentice petty officer second class of the U. S. Navy, son of Mr. and Mrs. Martin H. Decker of Route 3, Hamlin, graduated May 13 from recruit training at the Naval Training Center at San Diego, California, according to a release from that base.

Apprentice petty officers are chosen from the ranks of the sea-man recruits to assist company commanders. The selection is based on individual aptitude and leadership qualities.

Barbara Durham to Get Degree at H-SU

Barbara Ann Durham, daughter of Mr. and Mrs. C. W. Durham of 1255 Northwest Avenue F, is a candidate for the bachelor of business administration degree at Hardin-Simmons University.

Baccalaureate will be held Sunday, May 31, and commencement will be held Monday, June 1, both at the First Baptist Church of Abilene. Approximately 167 H-SU students are degree candidates this spring.

Melba Joy Osbourn Becomes Bride of Don Wayne Bailey in Friday Rituals

Melba Joy Osbourn became the bride of Don Wayne Bailey in nuptials read Friday evening at the First Methodist Church in Hamlin. Rev. Gene Brock, pastor of the McCaulley Baptist Church, officiated at the rites.

Melba Joy is the daughter of Mr. and Mrs. J. W. Osbourn of Hamlin, and young Bailey is the son of Mrs. Wilma Hewitt of Abilene.

Given in marriage by her father, the bride wore a street length dress of lace over satin, styled

with a scoop neckline, satin cummerbund and bouffant skirt. She carried a white orchid.

Maid-of-honor was Louise Lakey of Hamlin, and Herbert Moore of Haskell was best man. Miss Lakey wore a beige embroidered sheath dress with a corsage of white carnations.

Tommy and David Bonds were ushers and candle lighters.

Wedding music was presented by Mrs. Brad Rowland, organist, and Danny McCurdy soloist.

The bride is a 1959 graduate of Hamlin High School. The bridegroom finished McCaulley High School, and is employed by Fletcher Drilling Company.

Following a short wedding trip, the newlyweds are at home at Haskell.

First Baptist SS Class Has Social Tuesday

Members of the Friends Sunday School Class of the First Baptist Church met in a social gathering in the basement of the church last Tuesday.

Mrs. I. D. Miller, associate member, gave the devotional. She used for a demonstration a car on a poster, pointing out that "our lives should be kept in shape just as it is important to keep our cars in shape."

Class members present were Mmes. Noel Weaver, Ernest Lee, W. C. Hargrove, Clyde Grice, Jack Wright, Bonnie Bingham and Watt Fletcher.

THESE WOMEN!

By d'Alessio

"But you're too young to be married, sweetheart! Your father and I haven't finished growing up with you yet!"

Growing Older with Charm Can Be Aided by Woman Using Simple Rules

How can older women make the most of their looks? How can old age be postponed? How can it be enjoyed? These questions bother women who want to keep youthful mentally and physically, declares Vivian Brown, AP News-features beauty editor, even though the calendar is against postponing the inevitable.

Many women manage to keep youthful, maintaining surprising vigor into the very late years. What is their secret? On the other hand, some women look older than their years. Why?

The secret of getting the most out of your age seems to lie in many things. But the formula boils down to:

1. Keep active as something you like.
2. Take the best possible care of your skin, hair and figure.
3. Get a moderate amount of exercise.

One 92-year-old woman attributed her longevity and spryness to the fact that she never got bored. She visits her three children and grandchildren regularly.

"When I get restless or feel I am beginning to get on their nerves, I move on," she says. "I go home and see my neighbors for a while, then I am off to visit another of my children's homes."

A 70-year-old woman is a playground recreation teacher all the year round. She says:

"The only time I am lonesome is when I am on vacation. I miss the children, their mothers, the fun and gab connected with the group. It keeps me young."

A widowed 65-year-old woman says she loses herself in travel.

"I always wanted to travel," she says, "and my husband made me agree that I would, even if he weren't around to enjoy it with me. It has helped me forget."

Once the skin has begun to wrinkle there is not much you can do except use nourishing creams at night, and eat well. If the skin is just beginning to line, you may be able to postpone the inevitable by eating foods that nourish skin

and hair. Career women and other women who live alone are likely to feel it is a waste to cook vegetables for one person. They may settle for a sandwich for the main meal, whereas to maintain the health of vital attributes to beauty such vitamin A vegetables as sweet potatoes, beet greens, spinach and broccoli are essential to the diet. A little of this each day should keep one ahead of Father Time, as the body stores this vitamin.

Foil necklines and crows-feet around the eyes at once by using a good cream in addition to eating proper foods.

An older woman's hair should be well groomed, and gray hair should be coiffed properly to be charming. Some older women like to dye their hair, having begun that practice when the hair turned gray. There is no reason why they shouldn't if they can afford the upkeep. Gray hair is beautiful though, and many women learn to appreciate it.

Older women should learn to eat the right foods, but not overeat to keep their figures well proportioned. Doctors are only too happy to suggest a good diet for your calorie requirements.

And when it comes to make-up, too little is better than too much. Put some color in your cheeks and at your lips, two places where it is necessary. Emphasize features that need to be played up or down. Wear clothes that are more conservative than flamboyant, but not utterly old-ladyish.

Summer Classes Set At DePriest School

Mrs. Ethey Ford, homemaking teacher at DePriest Colored School in Hamlin, will continue her work in that department until July 1, it is announced by school officials.

She is conducting a nursery school this week at the homemaking cottage.

Mrs. Ford announces that several of her NHA girls will help with the Vacation Bible School next week at Oak Grove Colored Baptist Church.

ALABAMA'S VISIT.

Mr. and Mrs. J. M. Crow and children, Jimmy and Annette, of Gadsden, Alabama, are visiting with their parents, Mr. and Mrs. F. M. Crow, at Hamlin.

Unless a man is doing all he can he is doing less than he should.

Descendants of J. A. Lees Gather Sunday In Family Reunion

A reunion of descendants of the late Mr. and Mrs. J. A. Lee, pioneer residents of the Hamlin region, was held Sunday in the home of Vada Lee, 529 Northwest Avenue C in Hamlin.

The day was spent by several relatives and friends in reminiscing, playing and making pictures. Of course, the big dinner spread at noon was a focal point of interest for everyone.

Attendants included Mr. and Mrs. N. M. Lee of Girard; Mr. and Mrs. S. E. Hester of Abilene; Mr. and Mrs. Ernest Lee of Hamlin; Mr. and Mrs. Harold Lee and Ronny of Hamlin; U. L. Lee of Hamlin; Mr. and Mrs. Donley Lee and Jo Ann of Denver, Colorado; Mr. and Mrs. Charles Cary, Mike, Rick and Russell of Hamlin.

All the children of the pioneer couple except one were present for the happy get-together. Lawton Lee of Rockport was unable to attend.

Bath for Boys Can Be Made Interesting By Little Ingenuity

Not all little boys necessarily regard soap and water as natural enemies. And good grooming is just as important for boys as girls.

A boy's appearance and health habits are going to prove every bit as important to him in the future as they do to a little girl.

For this reason, it is important for mothers to realize that a bath can be made interesting to the masculine mind and body. Boys like bath accessories, too.

As far as they are concerned, mother can skip the pink and blue trimmings, but they do like good sturdy bath mitts and sponges, workmanlike body brushes with long handles for a good back scrub, and soaps that make suds easily and plentifully.

Junior also wants a big bath towel like dad uses. You might even get him a shaving brush like daddy's. There's nothing better for lathering the face. And he'll find it positively manly to wash his face when he can do it with a shaving brush.

It's not a bad idea, either, to let your son chat with dad while he's having his daily bath. If he sees the head of the household carefully scrubbing his fingernails with a nail brush, it won't seem a bit sissy when he's told to do the same. A few expressions of pleasure from dad when he's smearing himself with thick warm soapsuds will help to put over the idea that bathing is an invigorating experience.

Don't always make your son take a sit-down bath. Granted it takes a lot of scrubbing and soaking to get a boy clean, but a shower also can do a lot of good.

Hamlin B&PW Group Attends District Meet

Four members of the Hamlin Business and Professional Women's Club attended a district directors' meeting Sunday for area clubs at the Wooten Hotel in Abilene. Artie Mae Burkett of Haskell presided.

Representatives were present from B&PW Clubs at Hamlin, Baird, Haskell, Colorado City, Coleman, Brownwood, Abilene and San Angelo.

Attending from Hamlin were Lennie Greenway and Mmes. Evie Wilson, Barbara Teague and Mildred Howard.

New Officers for Next Year Installed At Final Meeting of Beta Theta Group

Members of the Beta Theta chapter of Beta Sigma Phi met for their last meeting of the year Wednesday afternoon in the home of Mrs. Max Murrell.

The hostess served refreshments to the following as they entered: Mmes. Duane Stallcup, D. C. An-

draws, Wilson Brannon, Dudley Griggs, L. C. Bonds, Bill Foster, W. A. Hawkins, James Harrison, Neil Lammack, Fred B. Moore Jr., Garland Preston, Jimmy Vaughn, Guy Weaver and E. D. Perrin.

Mrs. Duane Stallcup presided over a short business session, which was followed by installation of officers for the coming year.

The new officers are: Mrs. Duane Stallcup, president; Mrs. Max Murrell, vice president; Mrs. D. C. Andrews, recording secretary; Mrs. Billy Joe Wilson, corresponding secretary; Mrs. Jimmy Vaughn, parliamentarian; Mrs. Guy Weaver, treasurer; Mrs. Wilson Brannon, reporter; Mrs. L. C. Bonds, director; Mrs. E. D. Perrin, sponsor; Mrs. Wilson Brannon, social chairman; Mrs. Neil Lammack, program chairman.

Gifts of appreciation were presented to Mrs. Dudley Griggs, retiring sponsor; and to Mrs. L. C. Bonds, retiring director of the chapter.

The meeting adjourned, with Mrs. Tom Teague closing with a prayer.

Mrs. W. H. Parker presented a gift to the outgoing chairman, Mrs. M. T. Hudson.

The meeting adjourned, with Mrs. Tom Teague closing with a prayer.

Bible Contest Given By Methodist Women

A Bible contest featured the meeting of the Cook Circle of the Women's Society of Christian Service of the First Methodist Church in the home of Mrs. H. F. Copeland Monday with nine members and one visitor, Mrs. Joe McCrary, present.

Ella Temple opened the session with prayer. Mrs. C. F. Cook presided over a short business period. Mrs. Cotten read the scripture from James. Mrs. Copeland, the hostess, conducted an interesting Bible contest.

A lovely milk glass cake stand was presented to the circle chairman, Mrs. Cook.

Mrs. Copeland served cake, coffee and cold drinks to attendants.

Mrs. Etta Stephenson Will Be Honored

Children of Mrs. Etta Stephenson, long time resident of this section, are honoring their mother on her eightieth birthday at the home of Mrs. Virgil Steele, with whom she lives, Saturday evening in the McCaulley community.

All friends and relatives are invited to go and greet her Saturday evening from 6:00 till 8:00 p. m.

Mrs. Stephenson reached her eightieth birthday on May 4 but was visiting in Port Arthur at that time. She has lived for 54 years in Fisher and Jones Counties.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin—There's a "get on with it" mood among House members during this special session. House was the target of some criticism after the regular session for having made almost no progress in money raising.

This session the House began processing money bills at a fast clip. Initial action indicated there was less opposition in the House to Governor Price Daniel's tax program than during the regular session.

Many in the lower House seemed to be in a mood to get as much as possible over to the Senate and "let them worry with it a while." Then, if the finance problem still isn't solved at the end of this session, they hope people won't be saying that the House "sat on its hands again."

Senate attitude toward the various money-raising approaches is largely an unknown quantity. No money-raising bill ever came to a vote in the Senate—either in committee or on the floor—during the regular session.

Debt Paying Bills.—Three bills recommended by Governor Daniel to wipe out the \$65,000,000 state deficit received first legislative attention. These measures are:

1. "Bookkeeping bill" designed to lop \$28,000,000 off the August 31 deficit by crediting certain money to this year instead of next year.
2. One-year increase in the corporation franchise tax to bring in \$17,000,000. Sponsor Representative Joe Ed Winfree of Houston called it "a donation by Texas business" toward bailing out state government.
3. Abandoned property act, to transfer to the state treasury funds unclaimed for seven years. Estimates vary as to how much it would bring in; sponsors say about \$20,000,000 the first year, \$2,500,000 a year thereafter. It was re-written after its defeat last session, but bankers still are not happy.

First two of these bills received quick House approval.

Governor's Permanent Program.—To cover new money needs for the next two years, the governor is pushing a separate tax program, a "package bill" known as H. B. 7. It would raise an estimated \$161,000,000 in two years.

Affected by the bill would be:

- (1) Natural gas, with a reduction from seven to five per cent in production tax and addition of five per cent "severance beneficiary" tax;
- (2) interstate corporations, with a new and complex taxation formula;
- (3) utility companies, with an increase in the gross receipts tax;
- (4) cigarettes, one per cent package more;
- (5) other tobacco products, except snuff, to be added to sales tax fold;
- (6) liquor, increase from \$1.408 to \$2.50 a gallon sales tax;
- (7) automobiles, with sales tax in-

KERRY DRAKE

Texas Railroad Commission set the state-wide flow at 2,904,464 barrels a day on a 10-day production pattern.

It is the lowest allowable since last July. Both independent producers and major buyers asked the commission for a sharp cut. They said there is a surplus of petroleum and the threat of a glut on the market.

Gone with the Wind.—If you inherited some of grandfather's Confederate bonds, just look on them as keepsakes. Texas Supreme Court has held that the state cannot pay them off.

Holders of some state Civil War bonds issued in 1862 received legislative permission to sue the state for \$46,000 payment on the bonds. Lower courts held the state was not liable because of a general statute of limitations against debts that old. Supreme Court upheld that ruling.

BEING PUSHED TOO FAR.

They kept pushing him toward the rear of the bus until finally they pushed him out the back exit door. He ran excitedly to the front of the bus and tried to get on again. Someone yelled at him and said: "Sorry, bub, but we're too crowded."

"I don't care," he yelled. "You have to let me on or I'll get fired. I'm the driver."

Pay of School Youths During Summer Not Taxable on Income

Now that school is over, thousands of students are rushing off to play, but every year there are more boys and girls who work during the summer.

It is worth noting that Dad doesn't have to knock them off his income tax exemptions, declares Tax Man Sam in a release to The Herald. In spite of the law having been changed for five years a lot of dads still give the younger generation a bad time about not making over \$600. It doesn't matter any more, Dad, how much they make. You still get your exemption and the student also gets his own. That's the way the law reads.

If Junior doesn't understand how it works he had better take the income tax course for high school and college students next year. The 75,000 young North Texans who studied this fine little course this year know how to take the extra exemption.

A straight tip on a sure thing usually demonstrates the uncertainties of life.

The actuality of the present seldom looks as good as the theory of the past.

Freight Carloadings For Santa Fe Still Up

Freight carloadings for the Santa Fe Railway System for the week ending May 17, 1959, were 25,007 compared with 21,937 for the same week a year ago, reflecting a continuing gain. Cars received from connections totaled 12,116 compared with 10,292 for the same week a year ago.

Total cars moved were 37,117 compared with 32,229 for the same week a year ago. Santa Fe handled a total of 37,587 cars in the preceding week this year.

Highest point in Texas is the top of Guadalupe Peak, 8,751 feet, in West Texas.

The Herald

Hamlin Invited to Share in Filling Boys Ranch Pantry

"A growing boy is always hungry." This is the terse statement at the head of a letter being sent to people of Central West Texas by Hugh Ragland, auditor for the Merchants Motor Lines headquarters at Abilene in an appeal to assist him and others closely associated with Boys Ranch near Abilene in an effort to "fill the pantry" at that institution for homeless boys.

The letter continues: We feed our own the best foods and all they want. Can we, as citizens of this area be satisfied and sleep well at night unless we know that the kids at Boys Ranch have full tummies? I can't, and I don't think you can either. Just a little food from a lot of different people will fill their pantry and keep them from being hungry. It could even make it possible for the ranch to take another homeless boy or two.

They need cases of canned goods of all kinds; quarters, halves and whole beef; fresh or cured pork. If your deep freeze is full, share it with the kids.

I will assemble the canned goods at my home and deliver it to them. Hamlin area people are advised to contact Earl Johnson, local agent for Merchants, if they desire to participate in this worthy project.

The cost of defense will begin to appear when income tax payments are made.

Two classes of people believe in voluntary control: The naive and the predatory.

STRICTLY BUSINESS

by McFeaters

"It's not that I spend more than I earn, Sir — it's just that I spend it quicker than I earn it!"

Foster Home Plans For Vets Made by VA

Veterans Administration is extending its nation-wide "foster home" program to include physically disabled veterans, the agency said this week in a release to The Herald.

Established in 1951 to provide a normal home life for recovering mental patients, as a step in their return from the hospital to the community, the program has enabled thousands of VA mental patients to live with "adopted" families in private homes.

The veterans pay for their room, board and care from their own funds.

Cattle Raisers Group Directors to Meet in Abilene for First Time

Directors of the Texas and Southwestern Cattle Raisers Association will meet in Abilene next Friday, June 5, according to Charles A. Stewart, secretary-general manager. This will be the first directors' meeting held in Abilene in the 83-year history of the organization.

Norman Moser of DeKalb, president of the 10,000-member cattlemen's group, will preside at the regular quarterly meeting, which will bring approximately 100 of the Southwest's cattle industry leaders to the city at the invitation of the Abilene Chamber of Commerce officials and local TSCRA members.

Many ranchers in the Hamlin area are members of the group.

Bimetallism is a monetary system wherein both gold and silver are used as standards of value.

Congressman Burleson Cites Dangers In Wide-Open Refugee Immigration

In the last several years "special days" officially proclaimed has become a vogue, points out Congressman Omar Burleson of Abilene, in his weekly news release to The Herald from Washington. He goes on to say: We are now designating entire years to special purposes to place emphasis on special subjects.

The geophysical year has just been completed. Special efforts were made in the scientific field, but particularly the publicity was stepped up to inform the public on certain phases of research and experiments.

A new one—a real dilly—has now been dreamed up. It is to be a "World Refugee Year."

The president has just proclaimed the year beginning July 1 as World Refugee Year, and pledged increased government aid for more than 2,000,000 refugees.

The president set forth a five-point program which includes easing immigration restrictions, permitting an additional 65,000 so-called refugees and escapees to enter the United States.

Legislation has been introduced to authorize the attorney general of the United States to admit unspecified number of refugees "fleeing oppression."

When we look under every stone and chip to find Communists, while we attempt to stamp out disease, prevent crime, reduce unemployment, clear slums; it becomes government policy to open up our doors to a lot of people who under our immigration laws are considered "undesirable" and not permitted to enter.

All these people will need to do is leave their country for any reason, say they are a refugee, and they become eligible to enter. All they need to do is start a riot such as occurred in Hungary in 1957, run out on it, and they are eligible.

The so-called Hungarian refugees permitted to enter in 1957 and 1958 are mostly congregated to the ghettos of the big cities, and this is about as definite as our officials know of their whereabouts or what they are doing. Their only responsibility is to register as an alien the first of each year, but many have failed to do so. They are not U. S. citizens and have no responsibility by reason of being here. Yet, we propose to open our doors to more of the same.

Our present immigration laws provide quotas from various countries. These quotas are set to permit immigration for the most desirable people. A certain number is provided for those nations supposedly more nearly like the United States.

Senator John F. Kennedy has introduced a bill which would remove these quotas entirely and

allow 250,000 immigrants each year on a first come, first served basis.

The present law provides that visas should be allocated to countries in proportion to their share of the U. S. population in 1920. This provision would be eliminated, and unused quotas assigned to other areas.

As surprising as it is, the bill to authorize the attorney general to admit an unspecified number of refugees on a parole basis, is authorized by Congressman Francis E. Walter of Pennsylvania, chairman of the un-American activities committee and also chairman of the House immigration and naturalization sub-committee of the judiciary.

This is the sort of sentiment generated by a few big organizations in this country, led by prominent people in disregard of the opinion of the ordinary citizen who is not in the ranks of the professional "do-gooders" and who has seemingly no voice in keeping out these thousands of people, many of whom should have no place in this nation.

We should only have to look in the daily newspapers of crime reports in the big cities, the riots, the political picketing, and other actions inimical to our standards, to have an idea of what it means to compound a serious situation already existent.

The leaders of this policy say it is "humanitarian." It probably is in some cases, but the risk is great in many others. (It is also just possible that the bloc votes of the foreign elements in the big cities also have considerable influence in places.)

To oppose such action are the "narrow," "unsympathetic to the oppressed" and even "bigots."

Let them say what they will, but the welfare of America, not to consider millions of taxpayers' money, is more important.

Plans Complete for Methodist Ceta Camp

Plans have been completed for the Northwest Texas Methodist Young Adult Conference, scheduled June 12 to 14 at Ceta Canyon Camp near Canyon. Several from Hamlin area churches will attend. Theme for the conference will be "Our Faith—Our Missions."

The conference begins with Friday evening supper and closes at noon on Sunday.

Emphasis will be given to evangelism and church loyalty, effective and creative leisure and recreation time in the young adult fellowship and the family, problems in the life and growth of the child's religious development in church and home and leadership for an effective young adult class or group in the local church.

MSIS WOOL BECOMES TEXAN—Governor Price Daniel presents Miss Wool, lovely Beverly Bentley of Albuquerque, New Mexico, a certificate in Austin, making her an honorary Texan. Miss Bentley visited the capitol city and the Texas Legislature last week.

Success Is Meeting Crises, Minister Tells Lions Group

"Success! What does it mean? What must we do to achieve it?" This was the topic for an impromptu talk by Rev. Calvin Bailey, pastor of the First Baptist Church, when he spoke at the Tuesday noon luncheon of Hamlin Lions Club at the oil mill guest house.

The minister used the present world crises as a background for measuring success, which, he said, does not mean attainment of wealth or fame. "Success," he said, "means recognizing the crises of today, then meeting them head-on and solving them."

The speaker pointed to the realities of moral and spiritual decadence, world tensions and unstable philosophy that offer challenge and opportunity to people with principle and stamina. "But to solve the problems of the day, it will cost something in material, time and energy," Bailey concluded. "We can't quit," he said.

Guest lists for the forthcoming ladies' night banquet on June 16 should be provided within the next several days, declared Acting President B. V. Newberry. Officers for the ensuing new club year will be installed at the banquet.

Guests at the Tuesday luncheon included Joe Felton of Abilene, Louis Collins of Fort Worth, Delma Shelburne of Snyder and Ralph Bailey.

Promptness in Paying Income Tax Advised By Tax Man Sam

Each year thousands of people end up owing Uncle Sam money after April 15, on their income taxes for the year before, declares Tax Man Sam in a release to The Herald. Some of these simply forget to send in their check for the taxes. Others misfigure the tax. Still others take the option of having the government figure their tax and send them a bill.

If you owe Uncle Sam money you will do yourself a favor by promptly sending a check when you receive your bill. The provisions of the law are very strict and the revenue officers must by law, take prompt and orderly steps to collect taxes due. It's a lot easier to go and borrow the money or make some other arrangement than to try to delay collection by the government. Unfortunately, quite a few taxpayers have their salary levied on or their property seized and sold when they try to delay paying. Internal revenue makes a reasonable effort to collect before seizure and sale, but it is up to you to make more than a reasonable effort. It can save you a lot of trouble and embarrassment.

Insects Already At Work on Cotton In South of State

Cotton insects are already at work on the cotton crop in the extreme southern portions of the state, according to the first weekly cotton insect situation report issued this season by the Texas Agricultural Extension Service in cooperation with the plant pest control division of the U. S. Department of Agriculture.

The reports will be carried every week in The Herald as a public service to cotton farmers of the region.

Excerpts from the first report follow:

Thrips infestations were generally light in most areas with some isolated medium to heavy populations. Fleahoppers were building up and becoming serious in the Lower Rio Grande Valley with infestations in the Upper Coastal area and farther north generally light. Bollworms and boll weevils are beginning to show some damage in the Lower Rio Grande Valley and blackberry aphids, spider mites, and webworms and spider mites are reported to be causing some damage in the state.

Cotton farmers in the Hamlin area are urged to begin making preparations to control the insects as they migrate northwards with the new crop.

No matter how little you pay you can get something worse for less money.

WHEN IT COMES TO SOCIAL SECURITY, GET THE FACTS FROM THE SOCIAL SECURITY OFFICE. BE SURE YOU KNOW THE RULES. BE SURE YOU KNOW THE FACTS. BE SURE YOU KNOW THE TRUTH. BE SURE YOU KNOW THE REALITY. BE SURE YOU KNOW THE FACTS.

TIMED NEWCOMERS—Lami and Toean, the first orangutans for the Dallas Zoo in 20 years, cuddle together against the strange new outside world after their arrival from Borneo. The two lemurs will be joined by a young male orangutan within a few weeks.

Papers Commended For Tax Information

District Director Ellis Campbell Jr. recently gave a well deserved pat on the head to several hundred voluntary public servants, declares Tax Man Sam in a release to The Herald. These were the newspaper editors and the radio and TV managers.

According to Campbell's commendation, the news editors and others have saved millions for our Texas taxpayers by emphasizing the benefits due the taxpayer.

Taxpayers who read their tax instructions (as advised by your paper) prepare a correct tax return paying the tax they owe as well as taking all their deductions. Taxes are necessary, but it is awfully important that we each only pay our fair share.

Expressing faith in your own religion does not insult those who disagree with you.

More People Now Eligible for Social Security Payments

Many persons hereabouts who could be getting payments under recent changes in the social security law may not yet know about their new rights. R. R. Tuley Jr., district manager of the Abilene social security office, reported this week. Four groups of people now eligible for payments were mentioned particularly by Tuley:

1. Dependents of disabled workers receiving social security disability benefits.
2. Aged persons, dependent on a worker at the time of his death, who could not previously qualify for benefits because the deceased son or daughter was survived by a widow, widower or child, may now get payments.
3. Sons and daughters (of retired or deceased workers) who have been disabled since before their eighteenth birthdays may usually now be paid dependent's benefits even if they were not receiving one-half of their support from the parent.
4. Disabled workers who could not meet both work requirements under the old disability provisions may now qualify on five years of social security credits in the 10 years before the disability began.

Tuley pointed out that anyone who believes that he may be eligible for benefits because of these changes in the law should get in touch with the social security office or meet a representative of that office when he visits the towns in the 16-county district. Every post office has a schedule of such visits, giving times and dates. The Abilene social security office is located at 203 Fannin Street at North Second, or P. O. Box 5168.

Next visit of a representative to Hamlin will be Tuesday, June 12, at the fire department.

TIME TO GET BUSY.

"If you do, I'll scream."
"If I do what?"
"Well, you're not just going to sit there, are you?"

ASK A STUPID QUESTION.

First Guy—"I want to know how long girls should be married."
Second Dito—"The same as short ones!"

Most Bike Riders In Accidents Are Violating Traffic

Most bike riders in accidents with motor vehicles are violating traffic laws.

"In four out of five accidents, the bicycle rider is violating a law," the National Safety Council asserts. The fact was one of many obtained from a council study of the circumstances of bike accidents in the United States. Forty-two states took part in the study, and provided this information:

1. Between 400 and 500 bike riders are killed each year in accidents with motor vehicles. More than 25,000 bike riders suffer disabling injuries.
2. More than eight out of 10 victims are under 16 years of age.
3. Nearly nine out of 10 are males.

When do bike accidents happen?

1. Seven out of 10 occur during April to September.
2. Seven out of 10 occur during daylight hours.
3. They occur most often on Saturday, least often on Sunday.

Strangely enough, the council pointed out, in one accident in three the bicycle struck the motor vehicle.

The 42 states taking part in the study rejected almost unanimously a proposal that bicyclists ride on the left side of the street facing traffic.

The states surveyed favor bicyclists riding on the right side, and following all rules and regulations pertaining to other vehicles.

Riding on the left side of the street, the study indicated, is more hazardous than riding on the right side.

What suggestions does the council have to keep bike riders safe?

1. Obey traffic laws—traffic lights and signs are for bike riders, too.
2. Stay on the right. Ride with traffic.
3. Ride single file. Never zig-zag.
4. Make sure your bike's in good condition.
5. When traffic is heavy at a corner, get off and push your bike across the street. Stay within the crosswalks.
6. Don't ride your bike at night unless you have to. And then, make sure your bike has a light and rear reflector. Wear clothing that is light colored or that shines in the dark so you can be seen easily by motorists.

Doyle Brinegar Gets Degree from A. & M.

Doyle Wayne Brinegar of Hamlin received his baccalaureate degree in petroleum engineering at the May 23 graduation exercises at Texas A. & M. College.

Young Brinegar, an honor graduate of Hamlin High School, has been employed by an oil concern at Midland during the summer months, and will resume his employment there.

SECRET FASTENERS.

A teacher was questioning some of her students. "Can you take your warm overcoats off?"

"Yes," said one child.

"Can the bear take his warm overcoat off?"

"No, ma'am."

"Why not?"

This poser met with a long silence. Finally a little one spoke up. "Please, ma'am, because only God knows where the buttons are."

When you need rubber stamps, let The Herald serve you.

TEXANS MEET AT THE CAPITOL—Mr. and Mrs. John R. Murphy of Waco get some personal pointers on interesting points while sightseeing at the capitol in Washington, D. C. The capitol policeman is Chet Coutant of Corsicana.

Hamlin High Seniors Scheduled to Meet

Seniors of Hamlin High School are scheduled to meet at the high school auditorium this (Thursday) evening at 8:00 o'clock for a social business session, it is announced by B. V. Newberry, high school principal.

Several matters of interest to the class group will be discussed, Newberry says, who asks that seniors learning about the meeting will contact as many others of the group as possible.

NOW YOU KNOW.

"Iceland," said the school teacher, "is about as large as Siam."

"Island," wrote one of the pupils afterward, "is about as large as teacher."

David Hartman Takes Sylvester Pastorate

Rev. David Hartman of Abilene has accepted a call to become pastor of the First Baptist Church at Sylvester.

Hartman is finishing his third year at Hardin-Simmons University. He and Mrs. Hartman were scheduled to move to Sylvester, 12 miles southwest of Hamlin, this week.

BIG MOMENT FOR HIM.

"A baby's troublesome," admitted the father, "but remember the hand that rocks the cradle rules the world."

"Well," replied the wife, "suppose you assume world domination for a couple of hours while I'm at the movies."

Most of Accidents In Rural Sections Due to High Speed

"More than half of all rural fatal accidents in 1958 were caused by driving too fast for conditions. This fact alone takes a major problem of traffic accident prevention from the realms of engineering, licensing or laws and marks excessive speed as basically a human problem."

J. O. Musick, general manager of the Texas Safety Association, made the above statement this week as he sought community support for the state-wide slow-down-and-live campaign which begins with Memorial Day and will end with Labor Day.

Musick said this period had been selected for the campaign because it is during these months that vacation travel reaches its peak.

"Human problems of traffic control are the most difficult to solve, because they require technical answers," the association said. "However, the slow-down-and-live campaign is an attempt to make motorists more conscious of the inherent dangers of speed, especially excessive speed."

"Of course, signs and slogans alone won't do the job, but they do help create a climate of safety awareness that is vital to any accident prevention program," he said.

The annual slow-down-and-live campaign was initiated as a pilot operation in 11 Northeastern states in 1953 and has since expanded to include Canada, Puerto Rico and all of the United States.

"The man who tries to please everybody shows little respect for his own way of thinking."

Old-Timer Who Has Attended Reunion for 30 Years Due Again

Among the colorful characters that are almost fixtures of the annual Texas Cowboy Reunion at Stamford, scheduled this year on July 2, 3 and 4, is M. M. (Marvin) Cobb, who lives some 20 miles east of Stamford. He has not missed a single night performance of the reunion in 30 years, and he intends to be in the 4:00 p. m. parade this year on the opening day and following two days.

The 74-year-old cowboy, who came to the Clear Fork of the Brazos country in 1889, and has been in the cow business since, won the cowboy reunion award for calf ropers when he was past 65 years of age. Cobb says he has used 12 different horses in the 29 street parades, and this year will ride his prize dun horse, Truman, in the July 2 parade.

Cobb has worked for many well known ranches including Reynolds Cattle Company; managed the Proctor Ranch for 20 years; worked on the Hendricks Ranch; as well as managing his own ranch of over 1,200 acres.

He intends to ride in the entry of the Texas Cowboy Reunion on the matinee of July 4.

The story of

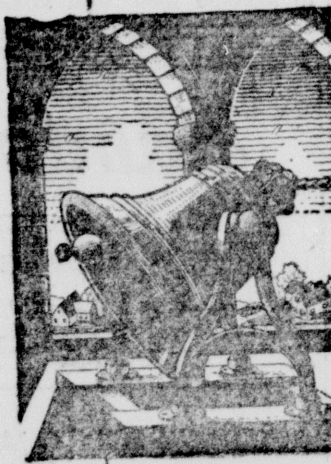

WILLIAM ALLEN WHITE and The Church Bell

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of The Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the thoughtful publisher, "we can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures, "that church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church."

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher.

"Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store."

Gas Company Office To Close Saturdays

Lone Star Gas Company's local commercial office will close on Saturdays beginning May 30, Manager L. N. Minton announced this week. Even though the commercial office will be closed all day Saturday, Minton emphasized that the company will continue to render the same service on customers' premises that has been the custom in the past. This service can be initiated by telephone. The Saturday closing policy is being put into effect throughout the Lone Star distribution system. The honeymoon is over when he stops helping her with the dishes—and does them himself. The Herald has carbon paper.

Decreased Water Storage and Stream Flow Noted in State Report for April

Decreased storage in major reservoirs and deficient stream flow evidenced the existence of drought conditions in Texas north of a line extending from Del Rio to Austin and thence to Texarkana, according to the monthly water conditions report for April just released by the State Board of Water Engineers. Average stream flow was generally experienced in that portion of the state below said line. Relatively high level peak discharges were produced by flood run-off on the Lavaca, Nacogdoches, Brazos, Trinity, Neches and Sabine Rivers.

A total decline of 56,480 acre feet in conservation storage occurred in 34 major Texas reservoirs placing same at 7,990,930 acre feet at the end of April. This decrease brought usable storage down to 78 per cent of capacity as compared to usable storage of 99 per cent of capacity at the end of April, 1958.

Lakes in the Hamlin region were down some, but storage was not materially critical. Flow from Comal Springs averaged about 330 cubic feet per second, containing above the long time average flow.

Water level declines were recorded in four of eight selected observation wells, and rises were recorded in four. The Edwards limestone well at San Antonio recorded a water level 8.8 feet high.

Weldon Counts and Wife Finish College

Mr. and Mrs. Weldon M. Counts of 936 South Central Avenue are members of the class of more than 90 students graduating June 11 from LIFE Bible College at Los Angeles, California, announces Dr. Clarence E. Hall, dean.

The Counts, whose son and daughter, John and Betty Jo, live with his parents while the couple has attended the Bible training center on the West Coast founded by the late Almee Semple McPherson were active in the Foursquare Church of Hamlin, pastored by Rev. J. C. Bingham. According to the college head, Mr. and Mrs. Counts have accepted an appointment to pastor the Ballinger Foursquare Gospel Church after graduation.

U. S. Proving Concern for World by Sharing Scientific Facts, Says Senator

The Senate this week gave overwhelming approval to legislation offering powerful proof to the world of our national objective—the peaceful welfare of all people, points out U. S. Senator Lyndon B. Johnson in his weekly news release to The Herald. His letter continues:

This proposal would mobilize the skills, talents and resources of the health scientists of the world. It recognizes that the ravages of disease, the despair of disability and the tragedy of premature death are burdens borne by all the people of the world. Neither disease nor disability recognizes international boundaries. In the same manner, medical history shows significant discoveries and achievements have come from every part of the globe.

The need is great and the potential for good is equally large. For instance:

African Film Set at Ferguson Offers Thrills of Jungle

A drama involving adventures, filmed in technicolor against a panorama of the wild life, tribal warfare and jungle dangers of Africa, in a search for hidden treasure is unfolded in MGM's new film, "Watusi," starring Taina Elg, George Montgomery and David Farrar. The film shows Sunday, Monday and Tuesday at the Ferguson Theater.

Not since such previous pictures with an African locale as "Mogambo," "King Solomon's Mines" and "Trader Horn" has a movie piled up as many thrill highlights as are featured in "Watusi," which relates the physical and emotional conflicts encountered by young Harry Quartermain (George Montgomery) seeking to retrace his father's safari to a fabulous storehouse of Biblical treasures.

In the course of his search, in which he is accompanied by Rick Cobb (David Farrar) his father's old friend, and Erica Meuler (Taina Elg), daughter of a slain missionary, Harry Quartermain finds himself neck-deep in perilous adventure.

The trio is saved from a charge of hostile Kaluana natives only by setting fire to a bridge, which also sets aflame a huge area of the African veldt, resulting in the stampede of tens of thousands of terrified animals, among them zebras, buffalo, impala, hyenas and giraffes. In later sequences they face the onslaught of lions and panthers and the wrath of a herd of elephants, one of which they have wounded.

There is another suspenseful sequence in which the two men and the girl fight the current of a raging stream in tree trunk boats, with the story reaching its climax on a lava lake in a sea of molten fire, with the trail to the coveted mines passable only by way of a narrow precipitous ledge.

Underlying the adventurous action is the emotional conflict engendered in the love of both Harry Quartermain and Rick Cobb for Erica.

"Watusi" was produced by Al Zimbalist and directed by Kurt Neumann, who directed the successful "The Fly." James Clavell, who scripted the latter, also wrote the screen play for "Watusi," based on the novel, "King Solomon's Mines" by H. Rider Haggard.

In view of what's said and done, how many little boys want to grow up and become president?

It never occurs to some people that other people have sense to manage their own affairs.

CHARGES CENSOR—James Hamm, 21, senior at Texas Technological College and editor of The Torch, student newspaper at Lubbock, said he was threatened with expulsion from school if he printed a story or pictures of the hanging in effigy of Dr. E. N. Jones, Tech president.

Audly A. Neagle to Be Speaker at Sunset

Sunset Baptist Church has set this week-end as time for a series of revival services, according to the pastor, Rev. Derl Lee. Serving as evangelist during the Friday evening, Saturday evening and regular worship services Sunday will be Bro. Audly A. Neagle. Bro. Neagle made known his call and surrender to preach the gospel during the recent revival campaign at the church. He was licensed by the Sunset church upon his testimony.

The Friday night message will be his first as a licensed preacher. He is at present employed by the Celotex Corporation plant near Hamlin. Services will begin at 7:45 each evening.
